

Seven Day Challenge Report Card

DAY 2:

TERRORIST ATTACK

water contamination

A neighboring state has been struck by a nuclear weapon. All water sources in your area have been contaminated with radiation. Only the water that is already stored in your home is safe to use.

Today's Goal: Survive today using ONLY stored water

Daily Evaluation Questions (Things to Ask Yourself)

- Did you have enough water stored to meet your needs for the day?
- Was your water drinkable? What could you do to improve the taste?
- How long would your water last you in an emergency situation?
- What are some ways you could store MORE water?
- Do you have a plan in place for being able to purify additional water?
- Did you try to do laundry? What is your plan for washing clothes?
- What did your family do for sanitation? What would you do for sanitation in a longer term water loss situation?
