

# MY EMERGENCY PREPAREDNESS PLAN

---

## FAMILY PLAN

---

Includes a list of topics to discuss with your family, emergency protocol to follow, contact info, meeting locations and education.

An emergency is no time to figure out what you should be doing. Make it a habit of reminding young children of your plans and protocols.

## 72 HOUR KIT & EMERGENCY BINDER

---

Includes a list of items for your disasters kit to have on hand, along with options for you to get a 72-hour food kit put together.

We've also included a list of important documents for you to gather in case you have to "rebuild" your life.

## EVACUATION LIST AND CAR KIT

---

Includes measures to take when evacuating your home including a list of important things to grab should you need to evacuate.

You never know when you may be stranded on the road, so make sure to keep your car prepared for emergencies.

# FAMILY PLAN

It's a good idea to be on the same page with your family as to what you would do in case of an emergency. Review these concepts every few months as we all can be forgetful.

## DISCUSSION POINTS:

- ★ Meet with family members to discuss how to respond to the dangers of fire, severe weather, earthquakes, and other emergencies
- ★ Find safe spots in your home for each type of disaster
- ★ Discuss what to do about power outages and injuries
- ★ Draw a floor plan of your home and mark two escape routes from each room
- ★ Post emergency phone numbers near telephones
- ★ Teach children how and when to call 911, police, and fire
- ★ Instruct family members to turn on radio for information
- ★ Pick one out-of-state and one local contact person to call in case of a disaster.
- ★ Teach children phone numbers.
- ★ Pick two reunion locations one right outside of your home, and one away from your neighborhood in case you cannot return
- ★ Take a basic first aid and CPR class
- ★ Revise and review the plan often with your family regularly

## DETAILED INSTRUCTIONS

If you want it all laid out for you including a step-by-step shopping list and contents list, follow our 72 hour kit milk jug instructions.

## CREATE YOUR OWN

If you want to have more flexibility, you can customize your kit using our meal planner worksheet and choose foods from our sample menus.

## PURCHASE READY MADE

If you don't have the time (or energy) to build your own kits there are a lot of options available for purchase that may suit your needs.

# 72 HOUR KITS: Detailed Instructions For Food

These are instructions for putting together 72 hours worth of food. The shopping list, and menu found on the next page contain the foods you will need to buy and a menu for eating them over 72 hours.

## MILK JUG KIT INSTRUCTIONS:

**STEP 1** – Make sure you have cleaned 1 milk jug per person and a 2 liter bottle of water.

**STEP 2** – Multiply the number of kits you want by the items listed in shopping list and purchase the food items.

**STEP 3** – Purchase a wing stove and fuel pellets from an emergency preparedness store. Only one stove is necessary per family, but they are pretty cheap so if you'd like to have one per kit that is fine too. It will make it much more convenient in a true emergency.

**STEP 4** – Cut straight down the middle of a milk jug diagonal from the handle. Go about 1/3 of the way down. At the bottom of that cut, make a horizontal slice coming from each side but leave about 2 inches of the jug intact. This should make a sort hatch that you can pull open and insert the items in.

**STEP 5** – Place the necessary items into each milk jug according to the contents list. Put the Tang and cocoa servings into small zip-lock bags (1/4 c. per serving). If you have extra food left over, stick it in as space permits. Tape the milk jug up. Tape the contents list to the outside of the jug and record today's date and the family member who will use that kit.

\*Please note this kit is very basic and may not be enough food to stay comfortable. However some people like it's simplicity, detailed instructions, and the fact that you can fit it all into a milk jug.
